Stone
NAVARRO HOUSE
San Antonio, Bexar Co., Texas.

Owner: Mr. Frank D. Brady

Date of Erection: 1894

Architect: Unknown

Builder: Mr. Frank D. Brady (Father of present owner)

Present Condition: Fair

Number of Stories: Two

Materials of Construction: Limestone and plaster.

Other Existing Records: None

Additional Data:

A small two story house of this type is quite unusual in this section of the State. According to Mr. Frank D. Brady, the present owner, it was built in 1894, but it appears to have been built earlier. The second floor is accessible only by an outside stairway on the East side; there is one room on each floor; each has a fireplace. Ceiling on the second floor is canvas, which is tacked directly to the second floor ceiling joists. Original shingle roof is now covered with galvanized iron. The main architectural feature of the house is the stone quoining on the corners. The quoins were not plastered over; other exterior stone surfaces were plastered.
